## Correction to:

**Journal of Analysis and Testing (2019) 3:160–165**  
<https://doi.org/10.1007/s41664-019-00094-z>

The article Towards Determining Kinetics of Annihilation Electrogenenerated Chemiluminescence by Concentration-Dependent Luminescent Intensity, written by Klaus Mathwig, Neso Sojic was originally published electronically on the publisher's internet portal (currently SpringerLink) on 8 May 2019 without open access.

With the author(s)' decision to opt for Open Choice the copyright of the article changed on 10 July 2019 to © The Author(s) 2019 and the article is forthwith distributed under the terms of the Creative Commons Attribution 4.0 International License (<http://creativecommons.org/licenses/by/4.0/>), which permits use, duplication, adaptation, distribution and reproduction in any medium or format, as long as you give appropriate credit to the original author(s) and the source, provide a link to the Creative Commons license and indicate if changes were made.

**Open Access** This article is distributed under the terms of the Creative Commons Attribution 4.0 International License (<http://creativecommons.org/licenses/by/4.0/>), which permits unrestricted use, distribution, and reproduction in any medium, provided you give appropriate credit to the original author(s) and the source, provide a link to the Creative Commons license, and indicate if changes were made.

The original article was corrected.
